Medical assistance is provided by associations recognised by National Security and by private companies. They have the powers to remove a competitor from the race for medical reasons. The competitor's runner number shall be removed, thereby indicating his/her irrevocable removal from the race.

Any runner who has been removed from the race but who continues the event, will do so entirely at his/her own risk and the organisers shall not be held responsible in case of an accident.

Every runner grants the organisers permission to dispense medical care and/or hospitalisation in the event of an accident or emergency.

Article 13 - TIMING

The timing rules applicable to the Eiffage Millau Viaduct in Aveyron Race are as follows: real time for all participants.

Timing is calculated by means of a chip system that is attached to the runner number. This chip is triggered automatically at the start line and is used for measuring the participant's time over the entirety of the distance.

In order to be ranked at the finish line, the competitor absolutely must be timed at the following points: start line, North and South roadway expansion joints on the Millau Viaduct, as well as at the finish line. Any competitor not covering the entire distance shall not be ranked upon arrival.

All runners pledge not to start before the departure and to cover the entire distance before crossing the finish line.

Article 14 - RANKINGS AND CHALLENGES

The prize giving will take place on Sunday 22nd May starting at 11.00am, on the winners' podium in the Parc de la Victoire beside the arrival zone.

Rankings will be given for Overall Men and Women, and for each Men's and Women's category, in accordance with the timing rules mentioned in Article 13.

Reminder: the overall ranking is calculated based on real time (from the moment runners pass beneath the start gantry until the finish line).

Based on real time, the official ceremony will award:

- the first 3 men and the first 3 women in the provisional general rankings. Important: runners who would like to have the possibility of receiving an award at the official ceremony are obliged to start in the 1st wave start (Elite and Preferential).
- the first man and the first woman in each FFA category (from Juniors to Masters) as well as the winners of the three Challenges hereunder.

Specific rankings will be given for the following categories:

▪ **Challenge Club**

To register for the «Club Challenge», the following information absolutely must be mentioned in the appropriate box in the registration form:

- the name of the FFA club
- FFA membership number

In order to be ranked in this challenge, the club must be an affiliated member of the FFA (French Athletics Federation) and have at least 5 race finishers. The ranking is calculated by accumulating the real-time race results of the 5 best club members. The team with the lowest total wins the «Club Challenge». In the event of a draw, the club with the 5th best time will be declared the winner.

▪ **Challenge Entreprise**

In order to take part in the « Entreprise Challenge », it is essential to subscribe to a « hospitality » offer.

To be classified in this challenge, the company must subscribe a hospitality offer and must gather at least 5 arrivals at the end of the race. The ranking is established by cumulating actual race times of the company's top 5 employees. The company with the lowest total wins the "Challenge Entreprises". In case of a tie, the company with the 5th best time will be declared the winner.

To find out more, write to hospitalite@course-eiffage-viaducdemillau.org

▪ **Number Challenge**

To register for the «Number Challenge», the group (*company, institution, association or club*) must provide as many finishers as possible (at least 10). The ranking is calculated according to the companies providing the most finishers.

Article 15 - INSURANCE

It is clearly indicated that runners take part in the competition under their own, exclusive responsibility. Organisers decline all responsibility in the event of an accident or theft befalling competitors or third parties during the event. Federation members receive guarantees given by the insurance covering their federation. It is the responsibility of other participants to take out personal insurance. Insurance cover can be obtained from the company of the runner's choice, such as the FFA (French Athletics Federation). The organisers are covered by civil liability insurance.
